## Panaccusticum CANONS - new panoramic music

In the compositions, improvisations and interpretations, notes and melodies are repeated as short echoes 1 to several times in a panoramic manner, sometimes to the left, sometimes to the right.

This technique layers the notes played into a polyphony, similar to canons, with a strong spatial sound. The wider the stereo field between the loudspeakers from which the repeated notes come, the greater the spatial effect!

"panaccusticum" is a live music performance by Matthias Etter with violin and a stereo echo device. The repertoire includes minimal music compositions, classical and jazzy motifs, folk melodies and sound sculptures.

Immersing yourself in this sound space with your eyes closed can change your perception of time....

### Personal details Matthias Etter

Born in Romanshorn in 1954. Grew up in Gümligen near Bern.

Apprenticeship as a mechanic (City of Bern training workshops).

Jazz school in Bern (amateur course).

Work with disabled people (Waldau, Nathalie Foundation, etc.) and socio-educational training (Bern Women's School).
